On July 1st, 2016, it was my privilege to take part in the inaugural ceremony for the "Ronaldinho-Anoela Community Health and Public Policy" program. The ceremony was held at the Hospital Cândido de Oliveira located in the neighborhood of Morro da Pedra, in the municipality of Rio de Janeiro. The inauguration was a three-day series of events. The first day was held at the Ronaldinho-Anoela Community Health and Public Policy School (SP-RLCI-HE-SUCEN), held in partnership with the Federal University of São Paulo (UNIFESP). The second day was held at the General Hospital of the Ministry of Health in Rio de Janeiro, where the press conference and inaugurator ceremony was held. In the end, we talked about the future of our community, its challenges and the way to solve them. Together, this is what we said: "Ronaldinho-Anoela: Starting with our first name, it was our great fortune to have been born in Rio de Janeiro and to have had the opportunity of living in a city that had already become a global reference for the study and exchange of knowledge, and for the development of arts and culture.
