The soundtrack to the interactive novel INMOST - Seventh Gate contains 29 songs. INMOST features multiple endings, including a fairly-obvious death, but a number of other endings are possible with some cunning sleuthing. There are a total of 8 different endings, and one character death. Show moreGreetings readers! Today we have the pleasure of announcing a new addition to our team, as well as providing you with a brief intro to his work. Greetings readers! Today we have the pleasure of announcing a new addition to our team, as well as providing you with a brief intro to his work. Tom Youngquist is a competent and talented developer with over 10 years of professional experience working on various MMOs and console games. He previously held the position of lead developer on Mythic Studios' WoW Insider, so we're happy to have him on board, bringing his professional experience and keen eye for game development to the team at ZeniMax Online Studios. Hello players! Wow Insider presents a huge congratulations to Alex, a veteran programmer we're welcoming to the team. Both the WoW team and the Wow insider team would like to thank Alex for his contributions to this game, and for his wisdom and enthusiasm during his time on the Wow Insider team. Look forward to seeing more from him in the future! He is a full time Blizzard employee with current location in Vietnam. He has extensive development experience in several MMORPGs, server infrastructure/management, web applications and forums. His passion is making games that people will enjoy, and it's obvious that he has a strong vision for how these sites should be organized and enhanced for your benefit. We are grateful to Alex for taking the time to sit down and answer a few questions regarding his experience as a developer, his role at Blizzard Entertainment, as well as his plan for the wow fan sites. Botsorco: What is your current role at Blizzard, and what was your

previous role? Alex: I have been a full-time employee of Blizzard Entertainment for the last 4 years. Prior to that I was the Technical Director for World of Warcraft Trading Card Game for the first 3 years. Botsorco: How was your time at the trading card game (TCG)? Alex: The TCG had over a year left when I left. It was the most high-profile game in the Blizzard portfolio to date. During my time there, I was working on the movie. I also wrote a new set of rules for the game which was adopted by the franchise. We did a lot of work on both the backend and frontend technologies including the store
