I would like to thank you for the efforts you have put in penning this site. I really hope to see the same high-grade content by you in the future as well. In fact, your creative writing abilities has inspired me to get my own, personal site now ;) The reason why I stopped working on mine in the first place was because I thought it was kinda boring after <http://tinyurl.com/9j8cb2j> I learned about it from a friend. Now I have you to be my inspiration to start it off. Again, great blog and I look forward to seeing it grow over time. You know what's great? I told my husband about this site and he said that some of the other websites you can use to make money are making it sound too good to be true, but this one looks legitimate. Well, I just wanted to let you know that your opinion in this regard is completely different from my husband's opinion. I am a single mother of three and when I was in college, I just had one job. Because of that, I had a lot of free time, so I decided to make some extra money to go to the movies with my little brother and cousin. I opened my first account with Rev. Thus, it was the easier way for me to save some more money to get myself a house and better clothes. I had my own convenience store and the money that I made from there could buy me my first house and more. The last part is where I opened another savings account with NCEO. To be honest, when I got the first check, the amount I got was a lot more than I expected.

This is a very interesting scene for our adventurers. There is a great feeling of adventure here, and we know that our party has the ability to face any danger, but the tension that Kloos feels on behalf of his family is palpable. He is not excited to face the danger, but is very motivated to do so. He is eager to confront the menace that must be confronted. This is a role that I feel that Kloos will need to play in further adventures with our adventurers.

I like the idea of a customizable paladin. But it also seems to me that there's a risk of making the class too powerful, especially if it can use healing powers on its own. If it's in an Adventurer's Handbook, it shouldn't do much else, in my opinion. You have made a pretty damn good job! I wanted to say that you have posted a pretty darn good write up! It has everything you promised and it was a quick read! The guys seem pretty chill and they have already been getting their hands on the things they need! On the PDF, it was a pretty good PDF! It was awesome to read! I really liked how simple the read was and it was a easy read!! You mentioned that it was easy, I mean, you wrote a good write up, it has the things you promised, it was an easy read! So a pretty damn good job! Good job man! A++! And I know that you said that a discount on the print version has been given, but I wanted to know where I can get the print version from? I wanted to ask if there is any way that I can get it without the discount but I know that it is easy for you to skip the discount thing and do the print version for free. I am a big fan of your work and I want to support you as much as I can! So I wanted to ask that if you can do it for me. Thanks man! -Max One of the most uplifting comment has always been "you should do this professionally". Has been from day one. For a long time, I was feeling quite uncertain about any thought of persuing anything more than writing. Now, here I am being told by players that they genuinely prefer the products they get as a result of a DM's Guild membership. I am less than a hundred bucks away from a Masters in English Literature, and I feel a whole lot better about it than I would have if it hadn't been for all this help. I don't expect to become any sort of game designer or publisher overnight, but I am now at least able to gain more confidence in my creations. I am also one step closer to the first half-written, nearly-completed book. So yes, for all the skeptics out there, the time you spent reading this was well worth it. The document has stayed in my top 5 for a long time. I even made a quick little cover for it, had someone print it, and carried it around with me as a sort of memento. I even used it to brush my teeth. It was nice. 5ec8ef588b
