
**The Twilight Saga:
Breaking Dawn - Part
2 (2012) 1080p
BluRay X264 AAC-
YiFY 1**

Haha. Let me make sure I'm on the right page. Twilight- it's like the sequel to the year's biggest f**king surprise hit, and it's the sequel to the year's biggest f**king disappointment. I thought part 1 was going to turn into P2M, which is bad enough for me on it's own, but then i expected it to be even more depressing, and it's not. It's still depressed, but not to the point of me hating my life. The CGI was better, and the script was way better, and Bella was okay. I still had the majority of the emotional response I had from the second part of the last one, but i didn't cry because this was lacking the effectiveness of its predecessor. So if you like the first part, don't go expecting the holy grail, this is just as good, but not as disturbing. At least for me. There are references to the book, but I never got into it. The f**king werewolf trailer was so much f**king annoying, which is odd, because only the first part had a f**king werewolf. I don't know why it bothered me so much, but i hope it's just me. Like I was talking about with the f**king trailer for The Twilight Saga: Breaking Dawn - Part 2, the world is coming to an end, and i'm just starting to notice, okay? The first part of the trailer showed a f**king sign in the woods (it was pretty obvious it was a sign), but in this one, is just a f**king empty field, that for the sake of the trailer, has symbols covering the f**king ground. Now there is a live werewolf in a trailer for a f**king movie, and he is jumping around, speaking in tongues, and can't even realize he's in a trailer! I am so over it.

The Twilight Saga: Breaking Dawn - Part 2 (2012) 1080p BluRay X264 AAC-YiFY 1

the movie is about a woman who is turned into a vampire a year ago. the man who killed her had not been turned and was telling her that he might be able to heal her. she went with him anyway, although knowing that she would never get her self back to human. the film's is about a woman who is turned into a vampire a year ago. the man who killed her had not been turned and was telling her that he might be able to heal her. she went with him anyway, although knowing that she would never get her self back to human. the first part of the twilight saga films combines romance, comedy, adventure and horror. breaking dawn finds our heroines on the road once more, travelling into the badlands to take care of matters. their mission now is to track down the last remaining member of the volturi before he leads a rebellion. not only that but it's also the birth of their first child, and the end to the romantic saga. by the end of the film breaking dawn loses all sight of the silly tagline; twilight: blood, ties and baby teeth. with such an epic story as this, it feels like the film makers took their time to give us the best they could. it certainly shows and the film is beautifully shot. inthe first part of the twilight saga films combined romance, comedy, adventure and horror. inthe last third of the film, the editing gets so fast paced that the actors don't have any time to think or react, which i thought would have been interesting. the ending is very unlikely and this immediately sours your experience, which does frustrate me a little bit. however, it was in no way a bad film, in fact, it was a brilliant piece of entertainment. i loved it. on the whole, 8/10. 5ec8ef588b
